Shafadarou Investment Company (PJSC) is the third largest pharmaceutical holding group in Iran which covers a significant amount of Pharmaceutical sales. The holding began its activities with Melli Bank's, country's largest bank, investment in 2007.

There are seven subsidiaries within the group including Jaber Ebne Hayyan, Osvah, Chemidarou, Daana, Ramopharmin and Pakhsh-e Razi, second largest distributor in Iran.

Shafadarou Investment Company is center of enhancing and upgrading the nation's pharmaceutical industry. By combining the expertise of the many involved in the industry, the company aims to achieve international recognition. Supplying the country's pharmaceutical needs, using new technologies of the industry, manufacturing new products and increasing efficiency are some of the goals and missions of Shafadarou.

Our investors, shareholders and stakeholders are fundamental pillars in achieving success; their activities and efforts play a crucial role in the development and promotion of country's pharmaceutical items.

With their cooperation and participation, Shafadarou holding can take steps towards its goal more than ever before.

The Combination of Subsidiary Companies (from the perspective of Company Assignment)

- Services (Distribution of Pharmaceutical and Supplementary Commodities)
- Non-pharmaceutical Products (Supplement - Packaged Items)
- Finished Pharmaceutical Product
- Active Pharmaceutical Ingredient (API)

Achievements

- Sole Manufacturer of Injectable Antibiotics & Largest Manufacturer of Oral Antibiotics' API in the Country
- The Second Leading Pharmaceutical Industry Holding of the Country in terms of Domestic Production Market Share
- The Third Leading Pharmaceutical Industry Holding of the Country in terms of Market Share of Total Domestic Production and Imports
- Winner of the Highest Level of Quality (5 Stars) from the National Food, Drug and Sanitation Quality Awards
- The Second Largest Pharmaceuticals Distributor in the Country
- The Largest Producer of Soft Gelatin Capsules in the Country

Investment Co.

Daana
Manufacturing Co.

**Daana
Manufacturing Co.**

Daana Pharma is one of the biggest and most advanced pharmaceutical complexes in the region.

Our mission is to develop and offer pharmaceutical products and active pharmaceutical ingredients to the domestic and international markets to promote the public health and lifestyle.

Being the sole producer of injectable antibiotics (API) in the region, the company benefits from the highest production capacities of oral β -lactam antibiotics.

We are one of the biggest pharmaceutical producers of the dosage forms of finished products in accordance with GMP and WHO regulations.

The company focuses on the principles of sustainable development, caring about nature, commitment to human resource, health and welfare and applying progressive achievements in new technologies.

Production Lines

Production activities of the company are in two main categories:

1- Active Pharmaceutical Ingredients (API) in 7 lines, Including bulk raw material as oral and sterile materials.

2- Finished dosage forms, including injectable Vials, Soft and hard Gelatin Capsules, Tablets and Oral Suspensions in 16 different lines.

1- Soft gels

2- Antibiotic Tablets & Capsules

3- Non Antibiotic Tablets & Capsules

4- Antibiotic Suspensions

5- Antibiotic Vials

6- General Vials

3- Vial glass production in 5 lines

Chemi Darou
Manufacturing Co.

**Osve
Manufacturing Co.**

Osve Pharmaceutical Company (Ex. IRAN MERCK) owns the most complete production line of diet-food supplements in coating and effervescent tablets as well as new products with valuable treatment aspects such as Anti-cancer drugs and special diseases drugs including Thalassemia, MS, cardio-vascular drugs, etc.

Our mission is producing innovative pharmaceutical products, using up-to-date global standards for the domestic and international markets, meeting the expectations of medical and pharmaceutical societies, and promoting the public health and lifestyle.

Three Main production lines of Osve Company are:

- Anti-cancer Production Line
- Sterile Production Line
- Solid Production line

The production lines covers an area of about 18,000 m², with a constructed area of 13200 m² allocated to a 300-strong factory.

There are two separate solid and liquid production lines. The solid production line includes a tablet production unit manufacturing uncoated, enteric and film-coated, effervescent, dispersible tablets and capsules, with a total capacity of 880,000,000 units a year. This production line was renovated in 2006. Moreover, we started our new special site in 2009 for anticancer medicines – the first of its kind in Iran. The liquid production line is comprised of two ampoule production lines as well as a prefilled syringe (PFS) line which was put into operation in 2019 with a capacity of 9,000,000 PFSs a year.

The liquid production line upgraded in 2004 in keeping with the company's quality enhancement policy. Our products are used in different categories such as cardiovascular, antidiabetics, anti-hyperlipidemias, gastro intestinal drugs, antineoplastic drugs and etc.

Osve produces various pharmaceutical products through conforming to rules and regulations that prevail pharmacy principles, specifically GMP, cGMP and Iran Ministry of Health and Medical Education's (MOH) circular letters. This company achieved its goals and established quality (in accordance with ISO 9001:2015 pattern) and environmental (in accordance with ISO 14001: 2015 necessities) management.

The specialists working in Osve Research & development Department (R&D) have professional relation with physicians and academic communities to receive their feedbacks in order to guarantee the satisfaction amongst different customers. We pride ourselves on offering superior customer service during the past 50 years.

Ramopharmin
Manufacturing Co.

Ramopharmin Manufacturing Co.

Ramopharmin pharmaceutical lab began its activity in 1962, and after decades with the emergence of generic product system, it continued its production as generic.

Ramopharmin Pharmaceutical Company was registered as a limited company in 1969. It is one of the subsidiaries of Shafa Darou Investment Company which has 87.88% of its share owned by Jaber Ebne Hayyan. Ramopharmin is one

the top manufacturers of syrup in the country with a wide and diverse range in syrup products. Throughout the years, the company has upgraded and modernized its production machinery.

Pharmaceutical products of the company enter the market after being confirmed by quality control laboratories. The research and formulation unit of the company has been providing extensive and comprehensive programs for the development of new drugs. In 1981, in order to comply with the principles of GMP, production lines at new sites were established on an area of 6,250 square meters in the current location.

Ramopharmin Pharmaceutical Company has **four types of production lines** as follows:

- 1- Syrup production line
- 2- Nasal drops production line
- 3- Tablet production line
4. Capsule production line

Achievements & Certificates:

- Iran National Food, Drug & Health Award for Azaram in 2013
- Iran National Food, Drug & Health Award for PPI products in 2013
- ISO9001: 2008 version
- ISO14001; 2004 version
- OHSAS 18001: 2007 version

Razi
Distribution Co.

**Razi Distribution
Company**

RAZI Distribution Company is one of the leading distributors and wholesalers of pharmaceuticals, healthcare products, cosmetics, medicine, and medical equipment.

Our distribution centers are committed to providing customer needs through supply chain services on time and in a cost effective way. As a leading company in the supply chain of medicinal products with extensive experiences and success in the healthcare sector, we have been known as a reliable partner

nationally and internationally.

We have expanded our activities in the supply chain of medicinal products and medical equipment throughout the country by using 20 distribution centers. We are providing medical needs of patients and the healthcare centers at the shortest time and with the best condition.

Our History:

RAZI Distribution Company was established on 1984. Since then we have steadily grown our wholesale operation via longstanding (long-established) commercial relationships and development of new customer and supplier partnerships. RAZI Distribution Company is amongst the subsidiary companies of Shafa Darou group which holds the major part of its share.

Mission:

RAZI Distribution Company evolves healthcare of the community with the use of committed and qualified human capital, efficient facilities, modern technologies and integrated software systems in the entire stages of its supply chain. This company has sustainable and valuable interaction with suppliers of pharmaceuticals and pharmacies.

Vision:

RAZI Distribution Company tries to develop organizational qualifications and use expert and experienced human capital to achieve the best quality in pharmaceutical distribution and supplements in Iran and neighboring countries. Razi Co. will be placed among the 30 top companies of Iran.

Employees:

We are committed to creating a dynamic environment to achieve high organizational performance and we encourage the staff to develop and improve the quality of the services, specialization and team work. RAZI Distribution Company has the first and most important role in scientific and technological development in pharmaceutical products' supply chain at national level.

Our team has over 35 years' experience in the pharmaceutical sector and as a result of its professionalism has won the trust of our clients.

**Razi
Distribution Co.**

The total number of our employees at 20 distribution centers is over than 1000 people.

Distribution and Logistics:

Fleet of distribution and Logistics just like a major artery, are one of the main bases in distribution companies. Razi distribution Company, with more than 400 light and heavy trucks ownership and 100,000 m2 storage spaces, consist of a central warehouse and 20 distribution centers nationwide. Our vehicles equipped with the cold chain distribute pharmaceutical products to more than 12,000 Pharmacies in Iran. The company with cooperation of 150 authentic suppliers and more than 3000 types of medication has the most diverse pharmaceutical portfolio among all pharmaceutical distributions in the country.

Social responsibility:

We recognize the importance of corporate social responsibility (CSR) in the management of our business. We are committed to our expert employees, as our most valuable investments, our customers and suppliers, shareholders and the community that we are involved in.

Customer focus:

Since the customer's satisfaction is the most important factor in the survival, growth and development of an organization, all the activities in our company have been focused on this issue. Razi distribution company with 20 distribution centers, which cover more than 12000 customers in Iran, receives online orders and provides clients' needs and requirements with the lowest possible risk in the shortest possible time in the delivery system.
